

Water environments

SMT

Waterproof Grease packed Bearings

**Do you have trouble
with water?**

- Bearings stop rotating too soon
- Grease flows out
- Brown liquid comes out of the inside
- High replacement frequency

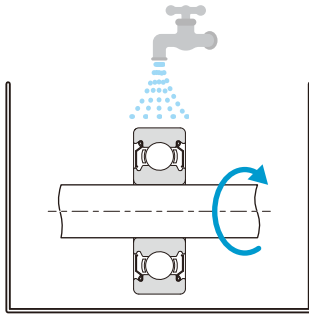

**Bearings with waterproof grease
achieve a longer life!**

SMT responds to grease change
with a short delivery time and
in small lots starting from one piece.

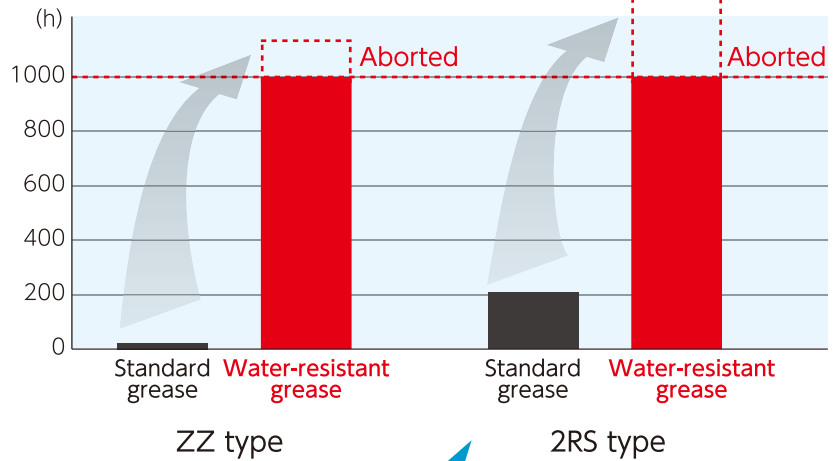

Performance

Test conditions

Bearing : SS 6004
 Temperature : 25°C/77°F
 Radial load : 1000N
 Rotating speed : 500min⁻¹
 Liquid : Tap water

The lifespan improves dramatically

In a water environment, the 2RS type has a longer life.

*Please consult us if you need to use antiseptic solution or cleaning solution rather than water.

Applications

Food machinery which is cleaned with water, cleaning equipment, other equipment used in wet area

How to make a product inquiry

Bearing number

ZZ or 2RS

water-resisitant grease

Please make an inquiry with above information and quantity.

Available series

SS Series AISI 440C Stainless Steel Bearings

SS6800 ~ SS6808, SS6900 ~ SS6916, SS6000 ~ SS6016
 SS6200 ~ SS6214, SS6300 ~ SS6312

6S Series AISI 304 Stainless Steel Bearings

6S696B, 6S626B, 6S698B, 6S608B, 6S628B,
 6S6800B ~ 6S6802B, 6S6804B, 6S6805B,
 6S6900B ~ 6S6905B, 6S6000B ~ 6S6008B,
 6S6200B ~ 6S6208B, 6S6300B, 6S6302B

Also available in all our other series.
